Honeywell Industrial Safety

North RU6500 Respirator Training

Honeywell

Today's Agenda

- Introduce **NEW** North RU6500 Full Face Respirator
- APR Swap-Up Program
- Honeywell (Sperian) Face Mount PAPR

Introducing the North® RU6500 Air Purifying Respirator !

Launched June 22, 2015

HONEYWELL – CONFIDENTIAL

[Preliminary – not final – no decision will be taken without satisfaction of any applicable consultation or negotiation requirements.]

New Line Up of North Full Face Respirators

Honeywell

North Full Facepiece Family

Honeywell Safety Products offers a range of North full facepieces that can be configured to Air Purifying Respirators (APR), Powered Air Purifying Respirators (PAPR), and Continuous Flow Supplied Air Respirators (CF-SAR). The complete facepiece offering includes the North 7600, North RU6500, and North 5400. To choose the facepiece that best suits your needs, use the comparison chart below.

HONEYWELL – CONFIDENTIAL

North® RU6500 Full Face Respirator

Honeywell

- **The North RU6500 Series is a silicone full face piece that provides comfort at a great price. (\$150 SLP)**
 - North 76008A = \$247 North 54001 = \$117
- **The silicone facepiece seal is soft and flexible to provide workers with a comfortable fit for hours of use.**
- **With its lightweight design, this mask reduces head and neck stress for the worker. The polycarbonate lens is designed to withstand high impact.**
- **Available in 5 Strap and Mesh headnet harness versions**
- **Compatible with the North N Series cartridges and filters**
- **Available in small, medium, or large**

North RU6500 – Features & Benefits

5 point strap option
Includes center strap to help position and hold the mask for a more secure fit; offers quick, easy adjustments

Polycarbonate lens with 200° field of vision
Maximizes peripheral vision plus downward view; meets ANSI Z 87 for high impact

Silicone seal
Provides excellent facepiece seal, creating a barrier against contaminants

Silicone nose cup
Softer and more comfortable for all day wear

Industrial mesh headnet option
Provides another option for user comfort preference; also can be used under hard hat

Wide viewing area
Provides distortion free visibility and optical clarity

Threaded cartridge connector
Secures cartridges and filters to avoid accidental disconnections

Can be adapted to PAPR or CF-SAR*
Eliminates need to fit test workers on several respirators

CF-SAR and PAPR front mount adaptability*

*Pending NIOSH approval

HONEYWELL – CONFIDENTIAL

[Preliminary – not final – no decision will be taken without satisfaction of any applicable consultation or negotiation requirements.]

The RU6500 will use the North N-Series cartridges eliminating the need for multiple styles of cartridges and filters

One Cartridge Series to Fit Them All!

All North Air Purifying Respirators will use the N-Series line of cartridges, filters, and cartridge/filter combinations. This includes the North low profile cartridges and cartridge/filter combinations, flexible and pad filters, P100 particulate filters, and all accessories used with these cartridges and filters.

The N-Series low profile cartridges have a sleek design with a lower profile, curved edges, and smaller inhalation holes for easier fit checks.

Note: Legacy Sperian cartridges will continue to be available thru 2017

The North RU6500 Series APR offers you the flexibility to go from APR to Powered Air Purifying Respirator (PAPR) or continuous flow supplied air respirator (CF-SAR) using the same facepiece.

The RU6500 is also the surrogate for the Honeywell Twenty/20+ pressure demand facepiece.

- **Can be adapted to a mask mount PAPR or a side connection belt mounted PAPR*** *(Estimated late Q4 launch)*
- **Adaptable to side or front mount CF-SAR** *(September launch)*
- **Same sealing skirt as the 20/20+ pressure demand facepiece used on the Panther PD-SAR and Cougar/Panther SCBAs**
- **Only one fit test required when same size facepiece is used for all platforms.**

* NIOSH approval pending

RU6500 – Powered Air Purifying Configurations*

Honeywell

PAPR – Mask Mount*

- Compatible with the North PR500 Series face mount powered air purifying respirator with HEPA filter
- Ideal for abatement market

PAPR – Belt Mount*

- Compatible with the North Compact Air 200 Series belt-mounted powered air purifying respirator
- Available with chemical cartridges, filter and combinations

*Pending NIOSH approval – est. Q4 2015

HONEYWELL – CONFIDENTIAL

[Preliminary – not final – no decision will be taken without satisfaction of any applicable consultation or negotiation requirements.]

RU6500 – Continuous Flow Supplied Air Configurations

Honeywell

CF-SAR – Side Mount

- Compatible with the North CF2007 supplied air adapter and 9000 series airline hoses and couplers to convert from air purifying to continuous flow supplied air

CF-SAR – Front Mount

- Compatible with the North CF4000 front mount supplied air adapter, breathing tube and 9000 series airline hoses and couplers

Both options offer higher levels of protection

APF = 1000

RU6500/Twenty/20+ - “One Fit Test for Multiple Platforms”

Honeywell

Same sealing skirt allows for use of the RU6500
APR as the surrogate for PD-SAR fit testing.

Twenty/20+ Facepiece

Panther Hip Pac

Cougar/Panther SCBA
